# Assembly Preparation

## Before Beginning:

Unpack all hardware bags and components to ensure you have all parts. Take note of bolt hardware size differences and components that may have directional labels (Example: TOP or FRONT).

Read the assembly instructions, cover-to-cover. Save any **Care and Maintenance** instructions pages for after the assembly has been completed.

It is always recommended to have 2 adults on hand for assembly.

Do not assemble on hard, abrasive flooring or carpeted surfaces that can damage or get caught in the components during assembly. It is essential to put a protective pad or glides between the feet of this furniture and the flooring if used on these surfaces.

Assemble on a clean non-marring surface (such as the product's packing foam).

Do not discard any packaging until the product has been fully assembled.

In case of missing parts, please contact your nearest World Market store or call our customer service call center at 1-877-967-5362.

**WARNING:** Small parts are a choking hazard. Adult supervision is required before, during, and after assembly.

# Assembly Steps

## Step 1

Remove packaging from inside the bottom of the Seat Cushion (A) and unbox all Legs (C) with hardware. Then attach the bottom flap to the bottom of seat cushion.

## Step 2

Remove the plastic cap from the Legs (C). Position Legs (C) with receiving holes beneath the Arm Frame (B) and tighten by turning clockwise. Position the notches to face inward. NOTE: due to the design, some force may be needed. Fully secure but DO NOT OVER TIGHTEN.

# Assembly Steps

## Step 3

Place Seat Cushion (A) onto Legs (C) as shown. Insert the Bolts with Washers (H-1) through the holes in the Seat Cushion (A) and engage with the receiving holes in the Legs (C).

**Note:** Turn leg slightly to adjust the leg angle to align all the holes. Do NOT tighten the bolts in this step.

## Step 4

Keep the plastic washer on leg.

Remove the plastic cap from the remaining Legs (C). Position Legs (C) with receiving holes beneath the Arm Frame (B) and tighten by turning clockwise. Position the notches to face inward. NOTE: due to the design, some force may be needed. Fully secure but DO NOT OVER TIGHTEN.

# Assembly Steps

## Step 5

Insert the Bolts with Washers (H-1) through the holes in the Seat Cushion (A) and engage with the receiving holes in the Legs (C).

**Note:** Turn leg slightly to adjust the leg angle to align all the holes. Tighten all hardware from this and all previous steps at this time using the provided Allen Key (T-1). **DO NOT OVER TIGHTEN.**

## Step 6

Using a second person to assist you, place the sofa upright. Assembly is now complete and the product is ready for use. **NOTE:** Hardware may loosen over time. Periodically check that all connections remain tight and adjust as needed.

### HOW TO FLUFF UPHOLSTERED PRODUCTS

Cushions tend to shift in the box and become compressed during shipping; or under normal use, some cushion designs may compress more easily. If cushions appear to be compressed, wavy, or wrinkled, they can easily be “fluffed” by hand. Loose cushions can be removed and patted firmly by hand on all sides and edges until the appearance is improved. Fixed cushions can also be patted firmly by hand until appearance improves. After initial unboxing, allow 24-48 hours for cushions to fully rebound to their normal shape.

# Warnings

All products sold at World Market are not for commercial use and are intended for residential use only.

# Care & Maintenance

**DO NOT** put hot items directly on furniture surface.

**DO NOT** clean furniture with harsh cleansers or polish.

**DO NOT** place furniture in direct sunlight.

**DO NOT** place furniture near heating or cooling vents.

**DO NOT** write on furniture without a padded barrier to protect the surface. Avoid use of sharp objects on or near this product.

**DO NOT** stand on the seat cushion.

Dust and pick up spills using a clean, non-colored, lint-free dry cloth.

Treat any spills or stains immediately. **DO NOT** let it soak into the fabric.

Solid and liquid stains can be spot cleaned using a clean white cotton cloth. Use fabric/upholstery cleaner on spills and marks, as general household cleaners can damage fibres and discolour fabrics. We also recommend our Indoor Upholstery Cleaner (sold separately). Scan QR code below.

Dab the stain with light, even pressure. **DO NOT** rub the stain when spot cleaning. For persistent stains and overall cleaning, contact a professional upholstery cleaning company.
